Initial prices, which ranged from 1 to 4 1/2 c lower, while December \$1.32 to \$1.35, and March \$1.35 to \$1.38, were followed by material further declines and then something of a reaction.

Breeding up to prepare for the government report gave comparative firmness to corn. After opening 1/2 c to 1 c lower, with December 80 1/2 c to 81 1/2 c, the market rallied in some cases to above Saturday's finish.

Oats started unchanged to 1/2 c lower, May 47 1/2 c to 47 3/4 c, scored slight general gains.

STOCKS CLOSE WEAK; TIGHT MONEY CAUSE

New York, Nov. 8.—Renewed signs of trade reaction, tight money and the further collapse of foreign exchange were the outstanding factors in today's active, but depressed stock market. Sales approximated 1,100,000 shares.

The closing was weak.

Stocks were poured out in heavy volume during the morning, dealings exceeding 500,000 shares. Extreme losses of 2 to 7 points were made by various popular issues, such as Union Pacific, American Petroleum, Alaskan Gulf, Republic Steel, Pierce-Farrell, Delaware & Hudson, Chesapeake and Delaware Canal, and others.

Additional reactions of 1 to 2 points from early prices were the rule. The rally before noon was largely confined to the market for Southern Railway and Northern Pacific. The London sale showed a loss of 1/2 point, but money was firm at 9 percent.

The monetary situation of the clearing houses and federal reserve banks after the close of last week's business and another decline in foreign exchange, probably further active selling of the general list at the opening of today's market. Losses of 1 to 2 points were established in the initial dealings.

Railroads broke 2 cents under last week's closing, except the Great Northern, which was 1/2 c higher. American Express, Pullman, and other non-railroad securities were at new low levels of depression.
